

BINS WITH CART
DEPÓSITOS CON CARRO

STORE AND TRANSPORT YOUR ICE SAFELY AND HYGIENICALLY WITHOUT LOSING A SINGLE CUBE

The ice storage bins are an indispensable element in order to produce large amounts of ice. An adequate storage bin avoids problems of space, saves work and money and guarantees an abundant stock.

We have a wide range of storage bins to adapt to any ITV ice machine and to respond to all requirements. The bins help you remove the ice, avoiding spills. Additionally, the transfer of ice is three times faster, which saves time and work. Some bins have a door at the bottom that lets you first remove the oldest ice, thus achieving better rotation and ice quality.

The SCS150, SCS300, SCD400, SCD600 and SCD800 bins have some transporting carts that eliminate the need to handle the ice for transport, since it falls directly into the carts. Thus the transfer of the ice is much easier and you avoid lifting heavy trays of ice.

SANITARY GUARANTEE

EASY CLEANING DESIGN®: seamless one-piece vat with rounded corners, avoiding possible dirty points and facilitating cleaning.

Hard sanitary polyethylene vat, resistant to blows, and scratches

ALMACENAR Y TRASLADAR EL HIELO CON SEGURIDAD E HIGIENE SIN PERDER NI UN CUBITO

Los depósitos para almacenaje de hielo (SILOS), constituyen un elemento indispensable para cubrir grandes demandas de hielo. Un depósito adecuado evita problemas de espacio, ahorra trabajo, dinero y garantiza un abundante stock.

Disponemos de una amplia gama de depósitos para adaptarse a cualquier máquina de hielo ITV y responder a todas las necesidades. Los depósitos facilitan el proceso de retirada de hielo, evitando derrames, además el traslado del hielo es tres veces más rápido con lo que se ahorra trabajo y tiempo. Algunos depósitos disponen de una puerta en la parte inferior que permite sacar primero el hielo más antiguo, con lo que conseguimos una mayor rotación y calidad del hielo.

Los depósitos SCS150, SCS300, SCD400, SCD600 Y SCD800 disponen de unos carritos transportadores que eliminan la necesidad de manipular el hielo para su transporte, ya que éste cae directamente en los carros. Así facilitamos el traslado del hielo y evitamos levantar pesadas cubetas de hielo.

GARANTÍA SANITARIA

Cuba interior de polietileno sanitario de gran dureza, resistente a golpes, y roces.

EASY CLEANING DESIGN®: cuba interior sin juntas, de una sola pieza, con esquinas redondeadas, eliminando posibles puntos de suciedad y facilitando la limpieza.
