# ITV | ICE makers

### **PRODUCTION CAPABILITY**

#### **PRODUCTION PLANT OF 200,000 SQF**

- ITV Ice Makers has the largest factory, 200,000 SQF, built in Europe in the last 15 years dedicated solely to the manufacture of ice machines.
- We have integrated all the factory sections in our new facility and have state-of-the-art machinery.

### **STATE OF THE ART MACHINERY**

Automatic warehouse (ULMA)

Digitalisation of production processes and traceability of components

Panelist Salvagnini

Welding robot

Own laboratory with 2 chambers

Hydrolysis welding

#### LEAN MANUFACTURING

DIGITALISATION of processes to align the management of the entire value chain Increase EFFICIENCY by letecting the source of problems and solving them. PULL PROCESSES: Producing on demand, avoiding overproduction

FLEXIBILITY in the production of the different product ranges.

COST SAVINGS, excluding activities that do not add value to the product

TEAMWORK Structured in GAP's with common objectives **CONTINUOUS IMPROVEMENT,** guaranteeing the juality of the product and service.

**FIFO** First In - First Out

## **TOTAL QUALITY**

### **ITV COMMITMENT**

#### **COMMITTED TO WORKERS**

Spaces in our facilities for your social and occupational well-being:

- Gym with monitor
- Dreambox
